

# Hazardous Storage

Chemicals require very specific and specialized storage which minimizes risk, personal injury and damage to property and equipment. Safe storage of chemicals also requires that all chemicals be properly identified including statement of hazards.

Visit [www.osha.gov](http://www.osha.gov) for complete details and regulation requirements.

## Sure-Grip® EX Safety Cabinets for Flammables

Double-wall, 18-gauge steel construction has (2) vents with flame arresters that allow hazardous vapors to be piped away if required. Integral leak-proof well contains accidental spills. Features self-latching doors with 3-point stainless steel bullet latches to help reduce fire risks. Includes U•Loc™ padlockable handle, reflective Haz-Alert™ warning labels for visibility in the dark and SpillSlope® safety shelves that direct incidental spills to the back and bottom of a leaktight 2" sump. Ten-year warranty. Yellow. Models with self-closing doors comply with the International Fire Code and NFPA 1 Fire Code. Meets NFPA Code 30 and OSHA regulations. FM Approved.

Ships Direct FOB Mfg.

**JUSTRITE**  
**Smokers Cease-Fire® Cigarette  
 Butt Receptacles**

Self-extinguishing design safely collects unsightly cigarette butts and reduces risk of fire. Made of low-maintenance, flame-retardant polyethylene that won't rust, dent or crack. Unique rain bonnet opening keeps rain out and discourages other trash. Lift-off lid to empty galvanized steel pail. Tie-down notches offer security and stability. In high-humidity environments, "drip-lip" internal construction prevents tar condensation from escaping. 16 1/2" dia. x 38 1/2" H. FM Approved. Made in USA.

**JUSTRITE**  
**Oily Waste Cans**

Dispose of oil-soaked rags and protect from fires that start due to spontaneous combustion, sparks or careless use of smoking material. Rags and cloths soaked with flammable liquids present a serious fire risk when improperly discarded. Specially designed lid opens no more than 60° and stays closed when not in use, isolating contents from fire sources and limiting oxygen, virtually eliminating risk of spontaneous combustion. Round construction and elevated bottom encourage circulation of air around can to disperse heat and reduce moisture buildup and rusting. Galvanized steel body with a durable powder-coat paint finish. Red. FM tested and approved, UL® listed, and TÜV certified.

### **JUSTRITE Type I Steel Safety Cans**

Fully compliant safety can with ergonomically counter-balanced design for easy pouring with rounded, swinging comfort handle. Protection features include a long-lasting, stainless steel flame arrester that dissipates heat to prevent flashback ignition and leak-proof, positive pressure-relief cap that automatically vents to guard against rupture or explosion. Large ID zone provided for identifying content mixtures and/or department location, work shift, crew or individual user. Heavy-duty, 24-gauge galvanized steel body and handle with powder-coat paint finish. Ten-year warranty. Meets OSHA and NFPA. FM approved, UL®/ULC® listed, CARB compliant and TÜV certified.

### **JUSTRITE Type II AccuFlow™ Safety Cans**

Offer additional convenience with 2 openings; top opening with lift lever for easy filling, second opening equipped with flexible metal hose for targeted pouring. Hose also provides a safe bonding path to the receiving vessel. Manifold automatically vents to provide fast, precise, plug-free pouring. Long-lasting, stainless steel flame arrester dissipates heat to prevent flashback ignition. Gasketed, self-closing leak-tight lid automatically vents to guard against pressure buildup at elevated temperatures. Warning label with extra large ID zone for identifying contents, department location, or individual user name. Heavy-duty, lead-free coated steel with reinforcing ribs and tough powder-coat paint finish for durability. Measures: 11 3/4" dia. x 17 1/2" H. Red. Ten-year warranty. Meets OSHA and NFPA. FM approved, UL®/ULC® listed, CARB compliant and TÜV certified.

### **JUSTRITE Bench Cans**

Help make cleaning small parts with solvents much easier and safer. Simply place parts on the spring-loaded, perforated dasher plate, press down and agitate, then release to return dasher to drain position. Plated steel dasher also serves as an effective flame arrester and hinged cover minimizes evaporation losses. Designed with a protected rim to reduce possible hand injury. Constructed of sturdy, 24-gauge, lead-free coated steel, can is finished in tough powder-coat paint finish for added durability. Red. FM tested and approved.

### EcoPolyBlend™ Spill Control Pallet

Durable, UV-protected EcoPolyBlend™ polyethylene is made of black, 100% recycled material that is nearly impervious to chemical attack from hazardous acids, caustics and solvents. Seamless construction and oversized, leak-proof sump prevent leaks even if a 55-gal. drum fails and completely empties its contents. Sturdy, self-locating grates are nearly 2 1/2" thick for superior crack resistance and can be removed for quick sump inspection and cleaning. Includes wide forklift pockets for easy relocation. Meets or z EPA 40 CFR 264.175, NFPA 1 and the International Fire Code, Spill Prevention, Control and Countermeasures (SPCC) Compliant, NFPA 30 9.13.1 and OSHA 29 CFR 1910.106(e)(2)(iii).

### EcoPolyBlend™ Accumulation Centers

Economical, low-profile secondary containment platforms are eco-friendly. Made of black, 100% recycled, post-industrial, durable polyethylene. Yellow version is made from 45% recycled content. Nearly impervious to chemicals, including acids and corrosives. Seamless design ensures any leaks or spills are captured in sump before reaching floor drains or creating a slip hazard. Sturdy grates are nearly 2 1/2" thick for superior crack resistance, self-locating, reduce chance of grate "ride-up" and remove for easy cleaning. Modular centers allow for creating a customized system using optional joining clips to firmly lock units together to expand storage space. Sumps remain separate and clips can be removed for easy repositioning.
