

# Welding & FR Safety

By nature, hot work generates a considerable amount of eye and face hazards. One of the most significant is exposure to ultraviolet (UV) and infrared (IR) radiation.

Visit [www.osha.gov](http://www.osha.gov) for complete details and regulation requirements.

## Jackson Safety\* BH3\* Variable Auto-Darkening Filter with Balder\* Technology

Features superior angle of view, enhanced visibility and color recognition, variable Shade 9-13, adjustable sensitivity and opening time delays. Curved front cover plate offers reduced heat build-up, reflections and fogging. Aerodynamic shell designed for better fume deflection. Smooth, rounded perimeter for increased comfort. Offers quick and easy replacement of safety plates. Auto-On ADF is always ready to weld. Meets ANSI Z87.1 High Impact 2010 standard, CE certified.

## Tigerhood™ Thermoplastic Welding Helmets

Provides extended throat protection while blocking fumes and smoke from the face. Molded from Noryl®. Size and shape allow air to circulate, helping to clear any smoke and fumes that seep in and to evaporate perspiration in the perforated sweatband. (If hazardous fumes are present, appropriate respirators must be worn). Molded-in colors eliminate chipping, peeling and fading; and smooth, seamless shell deflects sparks and spatter, reducing the risk of burn through. Exclusive, 3C free-floating headgear with multiple wearing adjustments comfortably accommodates protective spectacles and respirators. Available with Speedy® Loop system for frequent on and off use with protective caps. Fibre-Metal® welding helmets are SEI certified. Comes complete with Shade 10 filter plate installed. Gray.

07-0012-31BL

**3M™ Speedglas™ 100 Welding Helmet with Variable Shade Filters**

Available with the Speedglas™ 100V filter, which features five user-selectable dark shades, Shade 8 through Shade 12, and a light Shade 3. Filter has three sensitivity settings for Stick, MIG and TIG welding processes: normal- used for most types of welding (both indoors and outdoors), for when other welders are working nearby, and for low-current or stable arc (e.g. TIG) welding. Only recommended for TIG processes down to 10 amps. Black.

**3M****3M™ Speedglas™ 9100 Welding Helmets with Hard Hat**

Available with (3) auto-darkening filters (ADFs) in different sizes with built-in mag plate holder. Sensitivity adjustment for use with all Stick, MIG and TIG processes. Also has grinding and torch cutting modes. Headgear features flexible head suspension and extended coverage of vulnerable areas, such as the ears and neck, making helmets comfortable and versatile. Available with SideWindows with replaceable covers that allow for enhanced peripheral and downward viewing, reducing the "tunnel vision" effect. Each starter kit includes (5) outside protection plates, (2) appropriately sized inside protection plates, and a sweatband.
